To Holders of LAND WARRANTS!!

John L. Hodsdon,

DOW'S BLOCK, Hammond Street, Bangor, would call the attention of those who may have *LAND WARRANTS* to sell, to the fact that he has orders for large numbers of Land Warrants from parties in the West, who authorized him to pay for the same the highest market value in CASH. Any person having a Warrant may therefore be assured that he can obtain from Mr. H. the most favorable price for it.

To those who desire to

Locate their Warrants,

he would further say that he has skilful and careful agents in the States of

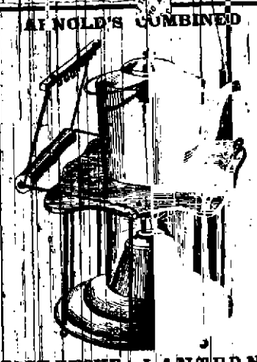
AT NOLE'S COMBINED



FOOT-STOVE, LANTERN, AND NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest, wettest weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, besides giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a tea-iron heated in the same length of time.

In fact, the various purposes to which this neat apparatus may be readily conducted for every one. No further description is required, as no one can misunderstand its general utility. To say anything more respecting its adaptability to a hundred purposes would just be telling what the reader knows full well at once for themselves.

For sale, wholesale and retail, at

No 1, 17 and 18 *Central Street, Bangor.*

Just Published, Gratis, the 29th Thousand.

A FEW WORDS ON THE RATIONAL treatment, without Medicine, of Spermatorhœa or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Impotency, and Impediments to Marriage generally.

BY E. DE LANEY, M. D.

The important fact that these alarming complaints may easily be removed *without Medicine*, is, in this small tract, clearly demonstrated; and the certainly new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled *to cure himself perfectly, and at the least possible cost*, avoiding therein all the advertised nostrums of the day.

Sent to any address, gratis, and post free in a sealed envelope, by remitting (post paid) two postage stamps, to Dr. E. DE LANEY, No. 17 Liberty street, New York.

The British Periodicals.

PREMIUMS

TO NEW SUBSCRIBERS.

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz.

1
THE LONDON QUARTERLY (Conservative)
2
THE EDINBURG REVIEW (Whig)
3
THE NORTH BRITISH REVIEW (Free Church.)
4
THE WESTMINSTER REVIEW (Liberal)
5
BLACKWOOD'S EDINBURG MAGAZINE (Tory.)

THE great and unparalled events—Religious, Political, Military—now agitating the nations of the Old World, give to these publications an interest and value they never before possessed. They occupy a middle ground between the hastily written news items, crude speculations, and flying leaves of the newspaper and the pondering Tomes of the historian, written long after the living interest in the facts he records shall have passed away. The progress of the War on the Baltic occupies a large space in these papers. Every movement is closely criticised, whether of friend or foe, and all shall come in fearlessly pointed out. The letters from the Camps and the Baltic in Blackwood's Magazine, are by one of the most popular contributors, give a more intelligible and reliable account of the movements of the belligerents than is elsewhere to be found.

These Periodicals fully represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature in their character. As Organs of the most prominent writers on Science, Literature, Morality and Religion, they stand first, and have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the statesman of means, while to the intelligent reader of every class they furnish a more correct and comprehensive view of the current literature of the day, than can be possibly obtained from any other source.

EARLY COPIES.

The receipts of Advance Sheets from the British Publishers gives additional value to these Reprints, especially during the present critical state of European affairs, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

Salute in Honor of Mr. Banks's Election.

Public Meeting.

The highly gratifying Republican triumph, in the election of Hon. N. P. Banks, Speaker of the House of Representatives, after so remarkable a contest, has given joy to thousands of hearts. In view of this great victory for principle, the Republicans of this city will, at noon this day, fire a salute of one hundred and three guns, in testimony of their appreciation of the success, which has attended the straight forward and unfaltering efforts of their friends in Congress.

It is also proposed to hold a public meeting at the City Hall, this evening at seven o'clock, for the purpose of mutual congratulations at the result, which shows, in the language of Daniel Webster, that "There is a North," and that Freedom has her victories. The Republicans of Bangor may well gather together in public assembly, to interchange their thoughts and gather new strength for the future.

We learn that several of our popular speakers have been invited to address the meeting, and it is to be hoped that there will be a full attendance of all the friends of freedom and the restriction of slavery to the States where it now exists.

P. S. *Shall the Powder be given to Kansas?* We learn that a consultation took place last evening, on the part of several of the subscribers to the fund for the rifles—when it was suggested that the question whether a salute should be fired, on the money, if not the powder, sent to Kansas, should be submitted to the public meeting to be held this evening. It is probable, therefore, that the salute may not be fired to-day, as announced.

The Question Involved in the Contest.

The recent protracted contest for the Speakership, which has at length terminated in the choice of Mr. Banks, was not a contest for the election of a particular man, nor yet for the mere ascendancy of a party. Had this been the case, the struggle would long since have come to an end—*for the* constituencies of the members would have demanded an election upon any terms. The contest however, on the part of the Republicans, was one for the assertion of a principle vital in itself, and whose *present* assertion is of vital importance to the welfare of the country, and the liberties of the people. The New York Tribune, in an article published before the decision of the Speakership, stated the matter clearly, as follows:

It is not a question of sympathy for the Africans, or an African question at all. It is not even a question of the abstract rights of man, or a question whether Slavery shall exist or not. It is, on the contrary, a question *whether the liberty of the mass of Americans shall hereafter be of any practical value to them*, or shall be overshadowed and nullified like that of the poor whites at the South, by the Slavery of Africans or others. While Slavery was confined to Slave States, and was understood to be waning there toward the doom of extinction, this was not a practical question in the Free States, except to those gifted with prophecy. Now that a Northern President sees no occasion for executive interference against the hordes of Border Ruffians which his own partizans have stirred up to exterminate Freedom on the soil once consecrated to it, and on which it now exists under the guaranty of his own Kansas-Nebraska bill, it has become not only a practical question but an inevitable one. Ordinary affairs can no more take the place of it, or postpone it, than Autumn can postpone Winter. Compromise did this utmost long ago, and has failed. It has come at last to this: that the free millions of the North insist before everything else and at all hazards that Slavery shall not extend another step. Why? Because there is but one step more for it to take, and after that there can be no more free labor at the North, but only free laborers as at the South—more miserable, if that can be, than Slavery itself. The idleness, parasitical dependence and hopeless degradation, in any African Slaveholding community, of those who are neither slaves nor slaveholders, is the great, the extinguishable fact, which, laughs to scorn all attempts to hush the Anti-Slavery clamor while Slavery is encroaching on Freedom. The free millions of the North may look on the sufferings of the African slaves with about the same equanimity as upon those of the subject classes in Hindostan. Their sympathy would never disturb the noon-nap of a Brahmin or of an overseer. But when they begin to see that their labor, in which all their wealth and honor consists, is put on a par with that of chattels in human shape, and that they and their children are to be starved out by competition in their own trades and fields with men bought at auction, they will stand to their rights, and if need be, to Sharpe's rifles. This, then, is the precise question which is blocking the wheels of the Government at Washington; nothing more nor less: "Shall Slavery be a national institution, and no soil sacred to Liberty under the folds of the national flag?" If the Pierce Democracy and not the Republican party obtains its point in the present struggle, the victory goes to wrest Kansas from Freedom, and throw her free laborers into a debasing and intolerable competition with chattels under the lash. If Freedom cannot hold Kansas after earning its right under the Kansas-Nebraska bill, when and how can it hold an inch of foothold in the Union except by its own good right hand?

An African question? plants the unbearable tool of the slave-drivers. Just as much an African question as any capital trial is a lumber question, because the result of it is to decide whether the lumber culture is to be permanent, more or less. Sympathy with the abused Africans is no crime—quite the reverse. It is a cause worthy of any friend of the right and enthusiasm yet manifested in this controversy, but it is not what has thrown the Republican party across the servile track of the Slave Democracy. American free laboring men are to be governed by the meanest slaves of an aristocracy; and it matters not whether they happen to be African slaves, Asiatic, or European. This is fatal, to be done in Kansas; and the war, already begun, merely lacks on an armistice to Pierce and Atchison's Border Ruffians on hand arms that will match them with the Free-Soilers of Lawrence. Is this the time to be thrown by a false issue, thrust into the mire by a second rate New Hampshire lawyer?

The glorious result which has taken place shows that the North can and will stand up for its rights! All honor to the Republicans who have done battle for them. Maine will especially honor the gallant representatives—Messrs. Hall, Washburn, Morrill, Lincoln, Edwards, Fessenden, Bradbury, P. Emerson, John J. Perry and Stephen D. Wood, who have not faltered one inch.

Shall Slave-Hold Property be Legislated at the North?

The transit of slave property through the Commonwealth of Pennsylvania, has been made the subject of warm and minority reports in the Legislature. The majority of the Judiciary Committee, held to the view that the right of transit is accorded to the Slaveholder, by the law of nations and the Federal Constitution. The minority, consisting of three members, among whom is Gen. E. Ely Morris, do not yield assent to the reasoning of the majority, but hold that Slavery is and must be a local institution—not recognized by the law of nations, the common law, or the civil law. They cite abundant authorities, to show that Slavery is not only against the laws of Pennsylvania, but also against the laws of Pennsylvania. The minority report is remarkably strong and able.—The Legislature has as yet taken no action in the matter.

It will be seen from the above statement that hunkerism in the north is prepared to concede the ground taken by Judge Kane, in favor of the legalization of slaveholding in the States which have heretofore been considered free. For it amounts to nothing less. If it be once admitted that slaveholders may hold their human chattels while making a *transit* through a free State, the whole ground is virtually abandoned to them. The time of the transit is impossible practically to limit—and the result will be that free northern men will find the odious institution actually domiciled in their midst. Our working men, and our mechanics, will not be free from the degrading competition of slave-labor at their very doors,—and not an acre of this broad Union will in reality be free soil.

Shall Judge Kane's doctrine prevail? The pro-slavery border party of the North answers yes, as we see by their action in the Legislature of Pennsylvania. They say the slaveholders have the right to carry their human property *anywhere*, and to hold it. Are the people of the free North prepared to submit to this advance of the slave power? or will they take and maintain the Republican ground, that slavery is local, and national?

In the same embarkment of passengers by the Arabia, which arrived at Boston on Saturday last, was notice the name of Dr. Wm. H. Brown of this city. A despatch states that he arrived in good health, which will be cheerful news to his numerous friends, who entertained serious apprehensions for him on account of a dangerous attack of disease, which he suffered lately in Paris.

More than a year ago Dr. Brown left a lucrative and increasing practice in this city, to perfect himself in Surgery and other branches of his profession. He will soon be among us again, and after a year's laborious and unremitting attendance on the lectures and exercises of the lecture rooms and Hospitals of Paris and Dublin, he will doubtless come prepared to take an elevated position in the profession to which he always evinced an enthusiastic attachment, and in which he had already gained a well-deserved reputation. Dr. B. will be welcomed by many friends, who esteem him not more for his professional ability than for the purity of his character and the gentlemanly urbanity of his manners.

An Explosion. The "hubbub" upon Hancock Street near the Church, were aroused from their slumbers about 5 o'clock on Sabbath morning last, by an explosion as of a six-pounder, and accompanied with a shaking like a small earthquake. No apparent cause for the phenomenon could be discovered, and the startled denizens thought it subsided to rest. When daylight appeared, it was found that the explosion proceeded from a collection of gas—which had escaped from a broken pipe on the corner of Ohio and Richmond Sts—and become confined under the sidewalk by the snow and ice. The flame from the gas light had communicated to it by means of the hollow iron post. The sidewalk was raised for 30 or 40 feet, but no other damage done.

The Patronage Question.—The Mercury states that Secretary Fillmore will make no foreign appointments. Mr. Wilson, who has been appointed by Gov. Wells, but will content himself with filing a protest in the office of the Clerk of the Court. Mr. Wilson will probably take position of the 4th to-day. James W. Willis, the present incumbent, is to be succeeded by Sheriff Wilson of Penobscot, a gentleman and a judicious appointment.

The Training of Boys.

It is often remarked, "we have no boys in these days." The period formerly occupied by boyhood and youth seems to be passed at a bound, the child feeling that as soon as he has acquired certain *airs*, he is entitled to the attention and respect of a gentleman.

But is this all true? Is it not true, rather, that many who have reached the *age and stature* of men have not reached the *years*, and are but *boys* set in *thought* and *purpose*—men in *form*,—boys in fact.

They may desire fortune, but they have neither the industry and spirit to acquire, nor the economy to retain it. They may desire reputation, but they have not the character for a foundation, nor patience to establish one.

Do not many of them find the responsibilities of *manhood* coming upon them, before they have the requisite *manliness* to grapple with them? They either give away in despair, or spend years in getting that training which they ought to have secured in youth, years that should have been spent in practice not learning.

This surely is not owing to a want of book-learning, for of this they have much more than their fathers.

There is however an education in *thought, purpose* and *working* which they lack.

This evil prevails mostly in the upper classes of society,—for poverty kindly educates her *children for work*, and they do her honor, blessing the world with their deeds.

But could not this evil be remedied by a greater sympathy and companionship between the boy and man, between the son and father? Many parents seem to feel that, when they have paid their school tax, and consigned their sons to the teacher, they have done their whole duty in the education of their children. They forget that they are acquiring views of life, habits of thought and action, from their fellows, children with themselves.

There is an education of those traits constituting manliness, that can be gained only from *men*. The child must commune with *men* either of the present or past, before he can become a man himself. The youthful athlete must gaze on the struggles and successes of his seniors, before he finds his own soul fired with emulation, and his bosom swelling with a noble purpose to imitate and even excel them.

It was this commening with *men* and their deeds, that led the younger Pitt, though but seven years of age, to exclaim when his father had been raised to the peerage, "Then I must take his place in the House of Commons."

Let the father interest himself in the sports, studies and trials of his child, thus gaining his sympathy, affection and confidence. Let him also try to interest his boy in his own daily struggles, successes and defeats in the battle of life. Let him *confide* in him, and he will soon find sympathy in the child, who rejoices in his success, and grieves in his defeat. There grows up a unity of interest. The boy soon wishes to *help*, and this desire opens ere long into a *purpose*, that developes and concentrates his energies, directing them to the attainment of the object, giving *meaning* to life. He grows up into a man under the power of a manly purpose.

Let it not be said that, this would make childhood to sober. It may abridge his childish glee, but it substitutes the beginnings of those truer, deeper joys only found in the earnest action of life.

After all, we love the boy not so much for what he is as for what he promises to be. It is the *embryo man* we want to see in him.

This sympathy between father and son would do much to revive a virtue, the want of which is much mourned just now. The old Romans called it piety, by which they meant that reverence for the Gods, and for one's *parents*, which begets respect, love, and a noble ambition to honor by a worthy life. They could give no higher praise to a youth than to say of him, "He is *pious*."

PUBLIUS.

The Style of Dancing.—Mons. Cellarius, who introduced the polka to the world, gives dancing soirees at his rooms in Rue Vivienne, Paris. The following is a quotation from this celebrated authority upon the matter of the dance:—

"The dancing of society, as it exists at present imprinted as it is with a character derived from the last few years, may be considered as entirely distinct from that of the theatre. It has its beauties and its steps proper to itself alone, but nothing in common with that which is applauded upon the stage. This *opinion* is formed upon the experience of facts, but still further on the laws of nature itself. I do not pretend to detract from the dance of the theatre, or diminish the least in the world the divine *art of Taglioni, of Grisi, of Ritter*. The change of manners of customs, and the fickleness of fashion, have doubtless greatly contributed to the giving up of the formal dances of some few years since. I have had to adduce in my steps all that was too theatrical, except for the stage or exhibitions."

The E. & R. R. Accident.—The editor of the Newburyport Herald was in the train when the accident occured, Thursday evening. The engine went off, one side, and the baggage car the other. He adds:

The first passenger car struck the corner of the baggage car, and the whole side of the latter car was instantly torn clean and clear, the forward wheels were thrown from the track, the seats ripped up and the passengers thrown about, inside and outside of the car, in a most fearful manner. Nobody was killed; and yet no one could tell why he was not killed, and a dozen others with him, for the car was in a thousand pieces. *We were sitting on one of* the back seats, where there was a perfect storm of pieces—glass and iron and wood—and never can we forget the feeling that seized us. It was all the work of a moment, and yet as foot after foot of the wrecked side was ground to pieces, and the splinters, one after another, fell amid the ruins, it seemed an age; and we actually asked to have it over and the progress stopped; and when it did stop, the cries of the terrified, the staring eyes and pale faces, the bloody heads, and the fallen and fainting, was a sight that we do not want to see again; once in a life time will satisfy us.

A man from Ipswich who had bought his tickets for Boston, immediately after the accident went in search of Mr. Young, the conductor, saying that he was afraid to go any further, and demanded his money back, expressing his determination to foot it back to Ipswich.

Danger to Kansas.—"Inspector," the able correspondent of the N. Y. Courier & Enquirer has the following in relation to affairs in Kansas:

"To me it appears evident, that the people of the Northern States are not aware of the real condition of things in Kansas. I believe the without large supplies of men, money, ammunition and fire-arms, a massacre will take place there in the spring. The message will greatly aggravate the *aggressive* and violent spirit of the Missouri borderers. If we neglect until the spring opens, the great duty of reinforcing our people, the opportunity for defence will have been lost. I think I know something of the character of the men with whom they will have to deal. Two years ago I showed they would do precisely what they have done, and I now state my conviction that a civil war is about to be commenced in Kansas, of which, the object on the part of the aggressors will be the utter extermination of the free State settlers in the Territory, or their expulsion from its soil. Atchison and Stringfellow openly declare themselves prepared for the greatest excesses, and every circumstance of this deplorable controversy furnishes a proof that they will have the means of executing their plans, unless timely provision be made for meeting and defeating their attack."

H. G. writes to the Tribune from Washington, Jan. 27, as follows:—

"The Rev. M. D. Conway, pastor of the Unitarian Church in this city, to-day preached a straightout anti-Slavery sermon. He scouted the pretence that the Slavery question is one of North and South, insisting that it is one of conscience and humanity, *which know no* geographical demarcations. He urged that the slavery issue is moral rather than political, and affirmed the right as well as duty, of the North to resist the spread of the giant wrong. As Mr. Conway is a native of Virginia, and has spent nearly all his days in slaveholding communities, it will hardly be pretended that he does not know what Slavery is. His discourse was very able as well as fearless, and was heard with profound interest by a most intelligent congregation. Mr. C. expects to lose his pastorship because of it."

Singularly Fatal Case. The sudden death of Mrs. J. J. Stewart, of New Vineyard, was naturally a subject of much doubt and speculation, until an examination by physicians exposed the true cause of her decease. From *Drs. Blake and Russell we learn the following* particulars in regard to this painful circumstance.

Mrs. Stewart was taken suddenly ill on Monday evening, 14th inst., but as her general health had been unusually good, it was attributed to some slight indisposition which would soon pass off. She, however, *continued to grow* worse, until 4 o'clock Tuesday P. M., when her friends becoming alarmed, a physician was called in, but without avail. She died at 11 o'clock the same evening. Her sufferings during the last hours of her life were intense.—A post mortem examination was immediately held, by *Drs. Blake and Russell of this town*, and Dr. Richards of Strong, and every preparation made for detecting poison, which it was believed she must have taken. On opening the stomach, hard foreign substances were detected by the hand, and emptying the contents into a bowl, three hard bodies fell heavily and distinctly to the bottom. On removing them from the bowl they were found to be beaten teeth, such as are used in power machines for threshing. They were accurately weighed and measured; each measured three inches in length, $\frac{1}{4}$ths inch in width and $\frac{1}{2}$ inch in thickness, all weighing 10$\frac{1}{2}$ ounces.

It seems incredible that so large a body could be swallowed—more incredible that three could be taken in succession; but the facts are too well authenticated to admit of doubt.

Mrs. Stewart was the daughter of Mr. William Holly of this town, and was 35 *years* of age. She had been in former years subject to spells of derangement; but for the past season had shown few symptoms of her predisposition to insanity.—*Farmington Chronicle.*

A Mother and Child Frozen to Death.—We learn from John Brooks, Esq., a Deputy Sheriff of this county, living in the town of Broome, that on January the 8th inst., Mr. Joseph Thompson, of that town, having occasion to go to mill about four miles distant from his house, left home for that purpose. His wife informed him on leaving, that she was going to a quilting at a Mr. Reed's, about three-quarters of a mile from their residence. Her husband told her to remain there until his return, and he would call for her. She went, taking with her three children—one a boy about seven years old, an infant about nine months old, and her sister's child, about twelve years old. About 5 o'clock, P. M., Reed came to his house intoxicated, having a jug of liquor with him. He began to insult the women present, and laid his hand on Mrs. Thompson, when she slapped him in the face—at which he threw her on the fire. A son of Reed, a young man, interfered to protect the woman, when a scuffle ensued between them, in which the young man had his leg broken.

Mrs. Thompson now left the house, it being about 6 o'clock, fearing to remain longer and directed her way a cross-lots for home. The night was intensely cold, and when about half way from her house, the little boy became so cold as to be unable to go farther, and lay down in the snow. The mother with her babe in her arms, and the other two children, also succumbed down beside him, and told the little girl to lay down with her. The girl did so, and and they all lay there till morning.

Mr. Thompson, on arriving home, took a lantern and went in search of his wife and children.

The girl, who survived, said she saw a light in the night at some distance from them, but she dared not make a noise, *for fear Reed would* come and kill them. At day light this girl was still able to walk, and wandered off till she got within sight of Justus Hamilton's house, when she was discovered and was brought into the house. When able to speak, she informed the family where and how she had passed the night. Mrs. Thompson and the little boy were found frozen to death; the infant, when found, was not frozen, but dead.—The little girl will survive, with the loss of two of her toes on each of her feet.—*Schoharie Patriot.*

The Earthquake at San Francisco.—The late earthquake at San Francisco is thus described by a local paper: At one o'clock on the 3d, this vicinity was visited with a severe shock of earthquake which shook most of the large buildings to their foundations, and caused serious alarm in several parts of the city.—The earthquake ranged from North Beach to Rincon Point, but was most severely felt in the lower part of the City Hall building, and in rooms of the third story the gas fixtures swayed violently. In the upper part of the International Hotel the confusion caused by the shock was so great that it is a wonder none of the occupants were injured. Mothers caught up their children and rushed, or rather fled down the stairway, shrieking for assistance and there was reason for the alarm, considering that the window sashes were forced open by the shock. The doors and window sashes were forced open with great violence, and the iron shutters were much bent and warped, the masonary of the walls was also considerably injured.

In most of the tinware and crockery shops down town, there was an unusual activity among the goods on the shelves, and in some instances the owners were in great consternation for the safety of their wares. The shock lasted about 25 seconds.

Holloway's Ointment and Pills, a certain cure for scald-head. Henry, 12, Maria, 10, and John Amber, of Apalachicola, Florida, were all three afflicted with this disagreeable malady. Maria in particular was in a wretched plight with it, and although there were many remedies tried, yet the malady did not seem to decrease, indeed the disease spread itself all over the surface of the head, to the great annoyance of the parents and discomfiture of the child. The blood of the others was equally impure. All of the parents put the three under a course of Holloway's Ointment and Pills, which cured them all in the space of a hundred days. The health of *Maria* since considerably improved. These remedies are also wonderfully efficacious in all diseases of the skin.

Bangor Vessel sunk and Six Lives lost.

NEW YORK, Feb. 4.

The W. H. Safford of Bangor, from Attakapas, while lying at anchor near the Fulton Ferry, had her cable parted by the force of the ice and the flood tide, when she drifted into the vicinity of the navy yard, and was brought to by her best bower anchor. This was at three o'clock this morning; all on board except the Capt. then repaired to their berths. At 8 A. M. it was discovered that she was filling very fast, with water up to the lower berths. All were aroused and went on deck, and the vessel immediately went down. Two men named Wm. Brown and Frank Ryder, mariners, got into the cross-trees. They were afterwards rescued by a boat from the receiving ship North Carolina. They were brought on board the ship in an almost exhausted condition, but soon revived under the treatment of the surgeon of the ship.

All the others on board the brig perished,—Those were the Capt., named Smith, his wife, and two children, a girl aged 11 and a boy 4 years of age. The names of the crew were Alex. Brenner, Henry Williams, and the cook —colored. The latter was shipped in Demarara. All the others were shipped in Boston, whence she sailed on her outward passage.

The Capt. belonged to Frankfort, Maine.

The vessel hailed from Bangor, was about years old, and 350 tons burthen.

Congressional.

WASHINGTON, February 4.

SENATE. Petitions were presented from several Naval Officers who felt aggrieved by the action of the Naval Retiring Board.

Mr Toombs said the Board should have kept a record to show they had not exceeded jurisdiction conferred upon them. Wrong and injustice had been done by their decisions, and no act of his should sanction their proceedings.

Mr Clayton defended the Board, but was willing to correct any errors they may have unintentionally committed. The President and Secretary of the Navy have power to review the action of the board, and unless it was shown that the board had exceeded their jurisdiction it was to be presumed they had not.

Mr Benjamin contended that the Naval Board had not exercised any jurisdiction, but simply gave its advice and information on matters before it.

Mr. Hayard made no imputation against the Board; it was composed of honorable and meritorious men. But the law under which they acted was the most barbarous ever enacted by any legislature of any civilized country. He recommended an act authorizing a revising board to be composed mainly of civilians.

Mr Crittenden believed it was perfectly competent for Congress to utterly annul and abrogate the action of the Board, and make it as though it had never existed.

After further debate, the subject was passed. Many bills were introduced, principally for internal improvements, and one by Mr Adams to extend the term of naturalization.

On motion of Mr Fitzhugh, the Finance committee were instructed to inquire whether the smaller Spanish coins may not be removed from circulation, or have a value established by law in accord with their intrinsic value, and to send the fractional parts of a cent.

HOUSE. *The Speaker* administered the oaths to support the constitution of the United States —the members advancing as their names were called for that purpose.

The Delegates from the Territories were likewise sworn. When the name of Mr Whitfield was called, Mr Grow said, in deference to the wishes of his friends he would not object to his being sworn. He thought, however, that circumstances would warrant the withholding the oath. He hoped to be heard some other time on the question.

Mr Campbell of Ohio, said that a constituent of his a Kentuckian by birth, had been brutally and murdered in the most cowardly manner, having been shot in the back as he was credibly informed, by an officer under the pay of the General Government in Kansas. As objecting to the administration of the oath to Mr. Whitfield would only tend to greater confusion after their excited struggle, he would not insist upon it.

On motion of Mr. Washburn of Maine, a committee was appointed to wait on the Senate and inform them that a quorum of the House had assembled, and elected Mr. Banks, Speaker, and was now ready to proceed to business.

On motion of Mr. Pennington, a committee was appointed, in conjunction with one of the Senate, to wait on the President, and inform him that a quorum of the two House had assembled, and were ready to receive any communication he might be pleased to make.

Mr. Thurston offered a resolution for the election of a Clerk by viva voce. Laid on the table by 103 against 85.

Election of Clerk by the Republicans and Americans.

A resolution declaring Mr Cullom of Tennessee Clerk of the House was adopted by 128 against 87.

At the Speaker administered the oath of office to Mr Cullom, there were manifestations of approval from the galleries.

The members then proceeded to elect seats in accordance with a resolution offered by Mr Bell, that all the members retire without the bar, and severally return as their names were drawn by the Clerk, and take possession of such seats as they might select. This consumed about an hour.

Mr Nichols then offered a resolution declaring Mr Glossbrenner, the present incumbent, sergeant-at-arms. Pending its consideration, the House adjourned.

After the adjournment, an anti-administration caucus was announced for this evening.

WASHINGTON, Feb. 4.

Mr Cullom was elected Clerk of the House by the votes of all the Republicans, excepting Messrs. Billinghurst, Bliss, Brenton, Day, Williams, Lester, Nichols, Skinner and Watson, combined with all the Americans present except Messrs. Humphrey Marshall, A. K. Marshall and Walker.

Judge Scarboro having recovered from his present illness, the Court of Claims is again in session.

It is calculated that at least 500 applicants for office under the House organization, were in and about the Capitol to-day, while distant aspirants were operating through Congressional friends.

Rejoicings at the Election of Mr. Banks.

BOSTON, Feb. 4.

The citizens of Waltham, the native town of Speaker Banks, fired 100 guns to-day, in honor of his election.

The encouragement was made in Waltham late on Saturday night by special messengers from Boston, when several dwellings were illuminated. People roused from their beds congratulatory speeches were made, &c. Mrs Banks was called upon and found in attendance at the sick bed of her mother. Hearty cheers were given at the residences of the leading Republicans, which about midnight the crowd dispersed.

N. Y. Liquor Law decided to be Constitutional.

NEW YORK, Feb. 4.

Judge Capron, in the Court of General Sessions, to-day, charged the Grand Jury in relation to the Prohibitory Law, fully sustaining its constitutionality.

Railroad Disaster.

ROCHESTER, Feb. 4.

The Niagara Falls Railroad is blockaded with snow. Three trains are off the track a few miles from this city. A dreadful collision has occurred about twelve miles from here.

SECOND DESPATCH.

The passengers who were on board the wrecked train arrived here this evening. They report no one killed but several persons severely injured, among whom are the engineer and the fireman.

Minister to England.

WASHINGTON, Feb. 4.

The Senate to-day confirmed Mr. Dallas, as Minister to England.

Chief Justice Taney was present in the United States Supreme Court, to-day.

Various Items.

BALTIMORE, Feb. 4.

We have received no mail to-day south of Savannah.

The Southern Commercial Convention held at Richmond, Va., adjourned on Saturday to meet at Savannah again in December next.—Committees were appointed to prepare address on the resolution adopted.

Rocket's glass factory at Richmond was destroyed by fire on Saturday. Loss $13,000.

A negro has been arrested in this city on the charge of murdering John W. Bell, the merchant who mysteriously disappeared two months since.

Fire.

UTICA, Feb. 4.

Our city is again infested with incendiaries. Two grocery stores, and 2 barns, owned by H. Churchill and G. C. Potter, on George street, were consumed at an early hour yesterday morning. Loss $7000. Insured for $1800.

Collegiate Rebellion.

CARLISLE, Pa., Feb. 4.

One hundred of the Students at Dickenson College have rebelled against the faculty, in consequence of the alleged expulsion of four members.

Markets.

NEW YORK, Feb. 4.

Flour. Common and medium grades and western flour declined 5. Demand limited for export and home consumption. Common to extra State 7,62 a 8; mixed to choice Michigan 8 a 8,50; fancy and low grades do; extra Genesee 10,50; Canadian 9,12.

Wheat dull and drooping. Prime white Genesee 2,17 which is above the market; red 1,80 a 1,95; white of all kinds 2 a 2,10.

Rye quiet 1,28.

Corn market unsettled and heavy. New yellow, mixed and white southern 80 a 87 c old mixed western 85 a 87.

Pork is dull and lower. Mess 16 a 16,12. prime 14,12.

Beef hams 19,50; prime mess 19 a 23.

Coffee firm. Rio 10¾ a 11¼.

Sugars quiet without change of price.

Molasses dull. New Orleans 44.

RIO JANEIRO, Dec. 13.

As anticipated in our last report of 13th ult. holders of coffee had to submit to a decline which took place on the 15th ult and amounted to about 500 rials per arroba on our then quotations. At this reduction purchasers came forward with unusual rapidity, and the market soon assumed a firmer appearance. On the 23d an advance of 100 rials per arroba was established, but notwithstanding, the demand continued unabated, and prices therefore were pushed up to our last previous quotations.—This week we have reduced to 10,000 bags.

Flour abundant, and downward tendency continues. Sales made of Galego 24, Black 24.

Freights. the scarcity of vessels and the large business doing in produce, caused rates to advance to 90 shillings for Europe. This month however, the demand for ships subsided and a great number of vessels having arrived the rate has receded to 80 a 85 shillings per ton for the United States. 70 a 90 have been ruling rates of late.

BAHIA, Dec. 9.

Sugar. Our market has been in a most excited state, and prices have risen fully 600 a 700 rials per arroba upon those quoted in our last report of the 17th ult. Quotations today for good average qualities are 2800 and 3000 rials, or equal to 25¾ 8d sterling per cwt., and 6¾ cts. per lb. for brown and 30s. 10d sterling per cwt., and 6¾ cts. per lb. for white, free on board without freight. The latter article is scarce, and the best chiefly for consumption here and for the southern market has been sold even as high as 4000 rials.

Coffee advancing.

Flour dull.

Coburn and Dalton were acquitted of manslaughter, on Saturday, in the Shawmut Avenue case in Boston—but convicted of assault and battery!

NOMINATIONS. John M. Adams of Hortland, Supervisor of Judicial Decisions.

Samuel B. Emery of Sanford, Sheriff of York, in place of T. K. Lane, declined.

The Boston mail again failed last night. We have had no papers since Friday.

DE GUINON'S IMPROVED

Non-Explosive Camphene & Fluid

LAMPS and CANS.

HAVING purchased the Patent right for the State of Maine for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the only sure preventive against explosions from Camphene and Burning Fluids, being made of the most durable material, not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved, after three years trial, to be the best Lamps in use, giving universal satisfaction, and proving perfectly safe.

These Lamps will be sold at wholesale or retail as low as the ordinary Camphene and Fluid Lamp, by J. S. RICKER, 16 Main Street, Bangor, Me., dealer in Lamps, China, Glass, and Crockery Ware.

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month,

Reduced Prices—$ 100 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamers, will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention in the Isthmus.

Tickets must be signed by one of the Company or their Agents before they will be recognized by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The Celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY

REV. WALTER CLARKE,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine, and in every instance its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged; and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes *free* and *easy expectoration*, and by removing the exciting cause of the cough, it frequently enables the sufferer to enjoy natural and refreshing sleep, whole weeks had been deprived of that blessing.

Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

BOWDOINHAM, 17th, 1853.

To Rev. Walter Clark Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev. Jesse Hoyt, Lewiston Falls

Rev. CLARKE—Every bottle of the Universal Cough Mixture which you left with me, is sold—and I have several applications for more. As far as I could learn it has been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with lightness of the chest and shortness of breath, that had driven away from business, purchased one large bottle and before he had taken one third of it, was perfectly cured, and has had no cough since He says it is the best medicine in the world, and cannot be recommended too highly

JESSE HOYT.

From Mr. Fletcher Clark, agent for North Dexter, Maine.

DEAR SIR—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had a cough of a year's standing, and others who have been declared exclusively without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike, Me.

SIR—JANUARY 1, 1854.

To Rev. Walter Clark Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs I did positively take several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

Fisk's Patent Metallic BURIAL CASES!

THESE CASES are extensively used, and possess valuable advantages over all other Coffins, for transportation, Disinterring in vaults, or for subsequent interments. They are with all the most approved metallic cases also constantly in stock and out to prevent trust or correction, and when properly examined, we have the gratifying reflection that the bodies of our deceased ones enclosed in them are *Free from Irruption of Water or Deposites from the Earth*, and such without offensive odor can be kept, insuring the necessity of hasty burials, or if deemed, transported to a distant land. The remains of the late

Hon. Henry Clay, Daniel Webster

Compound Fluid Extract Buchu

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY

For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Female Complaints,

and all Diseases of the Sexual Organs whether in MALE OR FEMALE.

From whatever cause they may have originated, and

No Matter of How Long Standing.

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints. It searches out the very roots of the diseases, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause and cannot be taken with less trouble and expense to patients. This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

and from premature graves. In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOUND. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them,

Delays are Dangerous.

With this medicine you can cure yourself, and thus prevent all exposure

Truth must and will prevail.

This medicine speedily and effectually cures the most virulent forms of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity.* And as a medicine which must benefit everybody, from the supply delicate to the confirmed and despairing invalid, no equal is to be found, it acting both as a *Cure and Preventive* of any of the above ailments.

Purifying the Blood, removing all diseases arising from Impure Mercury, Copaiba and Impurities in the Blood, chronic constitutional diseases arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Blotches and Swellings of the Bones, Tetter, Pimples in the Face, and all the only Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed; whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters, have been received from the most distinguished physicians in the country, and even from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous testimonials of Sarsaparilla and Buchu, and cases of cures effected, are known have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the attractive principles, and consequently, are most frequently improperly made, and the unfrequently much impaired, if not rendered totally inert, by the injudicious and unskilful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration that they should be purchased of the public only, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be, and are highly concentrated forms, and are the most active preparations which can be made. Two table spoonsfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equalsin strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

Fluid Extract Buchu, $1 per bottle, or 6 for $5

KENNEDY'S MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple! He has tried it in over eleven hundred cases, and never failed except in two! He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of bile.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of ringworm.

One and two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure saltrheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day to, that uncommon weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no if's or ands about it. Nothing same cases but yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to middle aged people, and has seen purely looking children, whose flesh was *soft and healthy*, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been positive for years, and have been regulated by it. Where the body is so much worked out of order, but where there is no apparent disease of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week.—These is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

Roxbury, Sept. 19, 1856.

This is to certify that M. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

LET US REASON TOGETHER

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the most trifling irregularity in all females, acting in many cases like acharm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma	Dropsy	Inward Weakness
Bowel Complaints	Debility	Lowness of Spirits
Coughs	Fever and Ague	Piles
Colds	Scarlet Complaints	Stone and Gravel
Chest Diseases	Headaches	Secondary Symptoms
Costiveness	Indigestion	Venereal Affections
Dysentery	Influenza	Worms of all kinds
Diarrhœa	Inflammation

TESTIMONY FROM MAINE.

Capt. Daniel Abbott, Brooklin, Maine, July 16, 1856, says: "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S.C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man. I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now a vessel in going to sea and resided in this place. Where you should have an agency, as you could sell large quantities of it."

Jos. B. Hall & Co., Presque Isle, Aroostock Co., Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs. Jos. B. Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after using three bottles, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure entirely to the German Bitters.
